CTD PHARMA

Regulated Supply Chain Performance

CTD Pharma is a small structure that can bring a lot of positive energy and inspiration to your Pharmaceuticals Supply Chain.

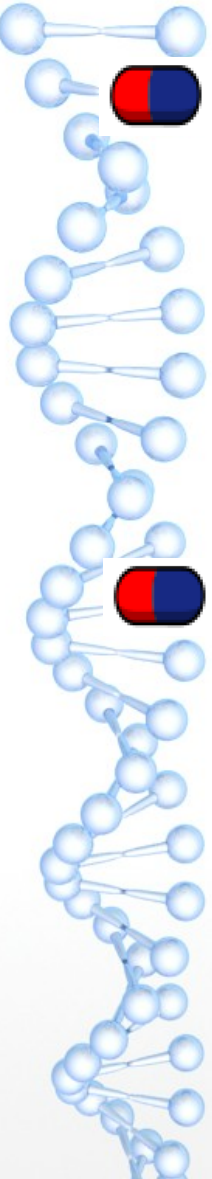

Contact us ! With an experience of more than 25 years in improving and building performing Supply Systems for the Pharma Industry, we will help you unleash your untapped potential of performance in areas that are key to you,

We are here to listen to you, and find with you the solutions that will suit you best while always complying with all requirements of the Pharmaceuticals industry.

HOW CAN WE HELP YOU?

Do you need to be able to rely on powerful systems and robust processes to be the backbones of your Supply Chain?

With CTD Pharma, Re-think the Master Data which you feed in your systems to make them reliable and compelling

Mission plan :

1. Team and Stakeholders engagement
 - which systems? which processes? Which opportunities?
2. Analysis of existing Master Data structure
3. Recommendation to address the needs and opportunities
4. Support of remediation plan

With CTD Pharma, boost your Supply Chain by integrating seamlessly the new technologies your are looking for, and remain 100%-Compliant

Mission plan :

1. Team and Stakeholders engagement
2. Assessment of current systems architecture / process integration
3. Recommendation for improved performance or targetted performance
4. Support for implementation
5. The above can be used to eliminate compliance gaps (GDPs, GMPs, Sarbanne Oxley, Internal Control, etc) in processes integrating systems
